

"OWN YOUR OWN POWER"

A Photo Voltaic SOLAR SYSTEM For Your Business

Now, with significantly lowered prices and new technologies that have increased efficiency, solar power systems have become a smart investment for many businesses and pays generous dividends. A photo voltaic solar system will, in most cases, generate all the electricity your business needs. **That could mean very low—or even NO—energy bills!** With the skyrocketing costs of electricity and natural gas, your savings could very well become even greater in the future.

The cost of electricity
today is **11¢/KWH**
That is projected to rise to
80¢/KWH in 20 years*

UTILITY REBATE

\$0.55 per kilowatt hour up to 50KWH.**
Larger system's rebates are performance based.

FEDERAL TAX CREDIT

30% of purchase price

ARIZONA STATE TAX CREDIT

10% up to \$25,000

FIXED ENERGY COSTS

Hedge against rising power costs

LOW OPERATING COSTS

LONG LIFE OF SYSTEM

25 to 40 years—with a 25-year warranty

SIX TO EIGHT YEAR PAYBACK

INCREASED PROPERTY VALUE

With no increase in property taxes for solar equipment

MORE REASONS INSTALLING SOLAR IS GOOD BUSINESS

Use IRS Code section 179
to write off balance of
cost, up to \$134,000
in the first year

Depreciation available to
qualifying businesses.

The example below is for a 3000 square foot office
with annual electric usage of 17KWH / square foot/year.

Power Usage (kWh)	20,000	40,000
DC (watts)	11,500	22,850
Total System Price Installed	\$57,500	\$114,250
Utility Rebates @ \$0.55**	-\$6,325	-\$12,567
Cash Required	\$51,175	\$101,683
Federal Tax Credit @ 30%	-\$17,250	-\$34,275
State Tax Credit 10% (\$25,000 limit)	-\$5,750	-\$11,425
Net***	\$28,175	\$55,983
