## Photovoltaic SOLAR SYSTEMS

### Who is an ideal energy saving candidate?

- Anyone who wants to save on their current and ever increasing cost of electric power including homeowners in a world where everything needs to be plugged in;
- Businesses that want to control their utility cost expenses;
- Schools and non profit enterprises that need to lower their power costs and stabilize future increases;
- Anyone who likes the ideas of solar shaded parking for customers and employees and the lowered cooling, replacement and lighting costs afforded by LED (lighted electronic diode) lighting.

### FIXED ENERGY COSTS

Hedge against rising electricity rates

### VIRTUALLY MAINTENANCE FREE

### LONG LIFE OF SYSTEM

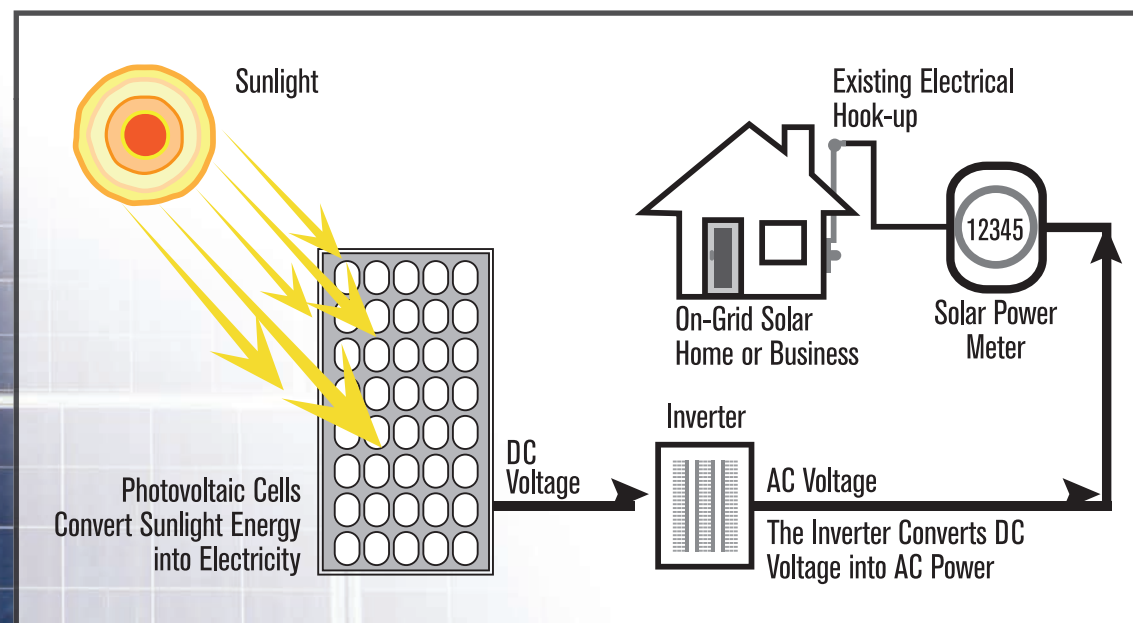

25 to 40 years--with a 25-year warranty

### GREAT RETURN ON INVESTMENT

### INCREASED PROPERTY VALUE

With no increase in property tax and no solar equipment sales tax

### LED Lighting Replacement and Solar Shade Structure Construction a Specialty!

## FOR YOUR BUSINESS

### FEDERAL and STATE TAX CREDITS

Attractive equipment financing options are available through module manufacturers, financial institutions and third party finance companies. Financing is available to qualified businesses as loans, leases or as Solar Service Agreements.

**There has never been a better time to go solar. Go ABCO Solar!**

### INSTALLING SOLAR IS GOOD BUSINESS

Use IRS Code Section 179 to take advantage of additional tax depreciation benefits available to business\*\*

Fix power expenses and eliminate future unknowns

30% Federal Investment Tax Credit and 10% Arizona State Tax Credits available

Photovoltaic equipment payments may be expensed

Little to no maintenance required and minimum reserves needed for replacement

Solar shade structures enhance the customers experience and provide an employee benefit.

Power consumption is dramatically reduced with replacement LED lighting.

Schools, Churches & Business alike gain more control over power expenses and can stabilize cost increases.
